

Direct links from a PDF file to topics in a WinHelp file ([sample.hlp](#)):

- Jump to “**third**” topic
- Jump to “**second**” topic
- Jump to “**first**” topic

Defined in FrameMaker with hypertext markers:

```
alert ~helplink (helpfile) (topicID)  
(distilled with TimeSavers)
```

Bookmarks pointing to topics in a WinHelp file ([sample.hlp](#)):

Defined in FrameMaker with hypertext markers:

```
alert ~helpbmk (Bookmark Title) /CS (helpfile) (topicID)  
(distilled with TimeSavers)
```

/CS is a 2-letter control string, where C=color (as defined in TS-set.ini),
S=font style (0=regular, 1=italic, 2=bold, 3=bold italic)
